

Rune Stone Make and Take or Rune Stone Scavenger Hunt

With this project you can let children, teens, and adults make their own rune stones, or you can create your very own scavenger hunt utilizing rune stones.

What you will need to make rune stones:

Glass gems (found at Walmart or Hobby Lobby)

Sharpie

Rune key (optional)

While there are other ways to make rune stones, this is the simplest way to do so. Just use a Rune key or have the participant make up their own rune and use the sharpie to draw the rune on the glass gem.

What you could use to make a scavenger hunt using rune stones:

Board or cardboard

Glass gems of different colors

Sharpie

Rune key

Glue (Tacky craft glue works well)

Your favorite book quotes

I took a quote from a book and coded it using a rune key I found on google. I made the rune stones with glass gems and a sharpie. I glued the rune stones on a piece of spare board we had here at the library. We would obviously provide the rune key, but it wouldn't have to be provided if you made sure to make computers available so people could Google runic alphabets. The object of the scavenger hunt is to translate the rune, figure out the quote, and figure out who said it. You could do many of these quotes and give out prize for all who complete the scavenger hunt.
